

Frame Loom Weaving: Texture, Color & Place

Cambria Center for the Arts

February 26-28 / Fri 5:00PM-8:00PM, Sat 10:00AM-4:00PM, Sun 10:00AM-4:00PM

Instructor: [Lynda Monick-Isenberg](#)

MATERIALS LIST

MATERIALS COST: \$15–\$100, depending on the loom choice and materials participants already own. This list includes basic options as well as tools and fibers that support continued weaving beyond the workshop. Supplies can be purchased at local yarn stores or online (e.g., Amazon, Dick Blick, Schacht Spindle, Beka).

ESSENTIAL SUPPLIES (bring to first meeting)

- **Frame Loom** (lap size: 10" × 15" to 14" × 18") — see options below
- **Tapestry Needles:** 2 blunt-tip, large-eye needles, metal, approx. 2-5" (e.g., Dritz) and/or **Rosies Wooden Needles:** 2, 6 "wooden needles
- **Tapestry Comb/Beater or a Fork:** Used to "beat" rows of weft yarn for a tight, even weave (a kitchen fork works fine). *Note: Schacht Lilli Loom includes a comb. These can also be found on Etsy.*
- **Scissors:** Sharp scissors for cutting yarn
- **Measuring Tape or Ruler** (12" minimum)
- **Sketchbook:** For notes and design sketches. I love the [Moleskine Cahier Journal](#), Soft Cover, Dotted, 5" x 8.25" for its light weight, accessible grid, and ease of carrying.
- **Pen or pencil**
- **Eraser**
- Colored Pencil set for sketching ideas – if you do not have them, you can borrow
- **Yarn/Fiber Assortment:** 4–6 skeins/balls in different weights and textures - wool, cotton, blends, textural fibers like roving, ribbon, recycled fabrics, raffia, novelty yarns you have on hand. The goal is to share yarn so that we have a wide variety of options for everyone.
- **Canvas Bag:** To carry supplies and in-progress weaving

OPTIONAL SUPPLIES FOR DIY LOOMS only

- **Shuttle:** 9" wooden shuttle (useful for longer weft strands; fingers also work).
- **Shed Stick:** A flat stick, 2" longer than loom width, to create a weaving gap ("shed")

FRAME LOOM OPTIONS

- **Beka Frame Loom (14" × 18")**
Hardwood, includes shuttle, pickup stick, and wood needle. Collapsible and inexpensive.
👉 [Blick Art Materials link](#)
👉 [Beka Inc.](#)
- **Schacht Lilli Loom (10" × 15")**
Hardwood, includes beater, shuttle, pickup stick, shed stick, and needle. Some assembly required.
👉 [Schacht Spindle link](#)
- **DIY Frame Loom**
Using stretcher bars (14" × 18" recommended) or 1" × 3" pine wood trim. Requires basic tools.
